		Let the light in by opening all of the curtains and shades. Give them a good shake to dislodge dust. Arrange them to look nice.							
		Take two grocery sacks around with you.							
		Pick up the trash and put it in one of the sacks. Set it aside.							
		Gather the clutter that belongs elsewhere and put it in the second bag, then set it aside,							
		too.							
		Neatly store whatever stays. Put all CDs, DVDs, toys, games, music, books and other regularly-used items that belong in the room into their respective storage locations.							
		Straighten all pillows on the sofa, which is one of the room's major focal points.							
		Fold throw blankets into whichever receptacles they belong in.							
		Wipe away any dirt, crumbs and fingerprints from table tops and horizontal surfaces.							
		Throw away the grocery sack of trash you gathered.							
		Return the clutter from the other bag to WHERE EACH ITEM GOES. I do not want this bag stashed in random corners. If I find it, I will HUNT YOU DOWN and hang you by your toenails.							
DUST	ING D	AILY							
		Get dusting. Work top to bottom, starting with the crown molding and the light							
		fixture/ceiling fan, including light bulbs, using the long-handled duster.							
		Dust the window casings, sills, furniture, all baseboards, mantels and decor with a							
		microfiber cloth, lightly dampened with water Pick up items as you dust; don't just dust							
		around them. Be sure to get lamps, including their bulbs.							
		Put away your cleaning supplies, vacuum and cleaning card to where they belong.
